Applicant(s): John Michael ASTLE, et al.

For: METHOD AND APPARATUS FOR BROADCAST
AND VIDEO SIGNAL RECORDING

Serial No.: 09/803 386

Group: 2182

Filed: March 9, 2001

Examiner: Unknown

International Application No.: -

International Filing Date: -

Atty. Docket No.: R&G C-319

Assistant Commissioner for Patents
Washington, DC 20231

INFORMATION DISCLOSURE STATEMENT

Sir:

Pursuant to 37 CFR §§1.56 and 1.97, the Applicants take this opportunity to call to the attention of the Patent and Trademark Office documents that may be material to the prosecution of this application.

The documents the Applicants now provide to the Patent and Trademark Office are listed on the attached Form PTO-1449.

This paper is being submitted to the Patent and Trademark Office before the issuance of any substantive Office Action. Accordingly, no fees are due in order to ensure consideration of the cited documents.

Four of the cited documents are called to the Examiner's attention in a Search Report issued by the British Patent Office in a corresponding application. A copy of the British Search Report is enclosed. According to this Search Report, the four cited documents were cited for only being A-Level documents that merely disclosed the technical background to which the claimed invention is related.

Further commentary regarding the cited documents is not believed necessary at this time.

Respectfully submitted,

David S. Goldenberg
